

StaticOptimizer WordPress Plugin is live now!

<https://statopt.com/news/static-optimizer-wordpres-plugin-is-live-now-p73/>

We're super happy to announce that we have published a WordPress plugin that allows WordPress site owners to have their files optimized with a few clicks.

We've spent many hours developing this plugin to make sure it works well and is efficient so it doesn't add an extra load on the website.

We're all about speed. If you find a glitch or have a suggestion please let us know at <https://github.com/statopt/static-optimizer-wp/issues>

Feel free to download it
